

**STUDENT ASSISTANCE PROGRAM (SAP)
PARENT/GUARDIAN CONSENT
2023/2024**

Agora Cyber Carter School offers a referral-based Student Assistance Program (SAP) that assists with connecting to supportive services for any student experiencing any academic, behavioral, and/or emotional difficulties that may pose as barriers to school success.

Students can be referred to SAP by parents/guardians, school personnel, peers, or self-referrals. Our goal is to work with you and to offer support and recommendations for your child, if needed. Where barriers are beyond the scope of the school, the team can provide information so families may access community resources. SAP does not diagnose, treat, or refer your child to services. The SAP Team provides you with information and resources, so you are able to make the best decision for your family.

Your consent allows our SAP Team to be able to assist if the need arises. More information about Pennsylvania's SAP Program can be found here - <https://pnsas.org/About-SAP/General-SAP-In-PA>

Please note your child is not being referred to this program currently. We are seeking your approval to participate in the process in the event a referral should be made at a future time. Please see the Agora's Student handbook and website for more information

_____ If referred throughout the 2023/2024 School year, I give permission for my child to be involved in Agora's Student Assistance Program.

Parent(s)/Guardian Signature: _____ Date: _____
