

Curriculum Exemption Requests:

Should you as a caregiver have an objection to specific academic course, content, a resource, an instructional practice or assessment, we recommend following to ensure your concern is addressed:

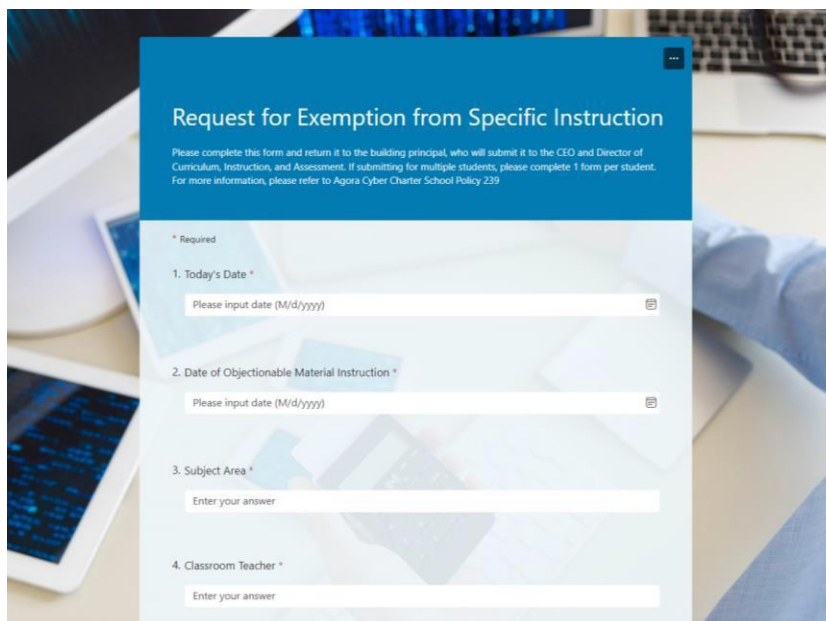

Consult PDE to reference standards adopted by the State of Pennsylvania- we are a public cyber charter school in alignment with the provision of the PA Core Standards. If the concept is included in the PA Core Standards, Agora is responsible for teaching the concept during instruction.

(For HS Students) *Consult the specific graduation requirements*- once the pathway to Graduation determined, adhere to the details necessary to complete your programming and receive an Agora diploma.

Consult and inform your child's classroom teacher- as a partner in your student's education and communicate your personal beliefs so that they are taken into account during instruction.

If the content is not specifically included in the PA Core Standards and warrants further coordination than consulting 1 classroom teacher, *Complete a CIA (Curriculum Instruction & Assessment) Exemption Request* to formalize your objection and send to Agora Leadership for review, approval and coordination.
